

Maths Medium Term

Year: 2

Term: Spring

Teachers: Mrs Fagg

Week	Topic	Objectives
Week 1	Number and place value	<p>Identify, represent and estimate numbers using different representations, including the number line <i>and 100 square</i>.</p> <p>Partition two – digit numbers up to at least 50 into tens and ones</p> <p><i>Partition numbers in different ways (for example, $23 = 20 + 3$ and $23 = 10 + 13$) using manipulatives.</i></p> <p>Order random numbers 0–100 <i>and explain reasoning</i></p> <p>Compare numbers for 0–100 – say which is more /less using $<$ or $>$ <i>and explain reasoning</i></p> <p>Reason about number</p>
Week 2	Addition to solve problems	<p>Recall addition and subtraction facts for numbers 11–20 , including missing number problems</p> <p><i>Ensure children think – can I do it in my head, with some jottings or by using an expanded written method</i></p> <p><i>Estimate answers to calculations</i></p> <p>Add 2 two–digit numbers using concrete objects and informal methods (empty number lines)</p> <p>Use inverse to check the answers to calculations</p> <p>Solve problems with addition</p>
Week 3	Subtraction to solve problems	<p>Recall addition and subtraction facts for numbers 11–20 , including missing number problems</p> <p><i>Ensure range of questions that require either take away or difference for subtraction</i></p> <p><i>Ensure children think – can I do it in my head, with some jottings or by using an expanded written method</i></p> <p><i>Estimate answers to calculations</i></p> <p>Subtract from a two–digit number using concrete objects and informal methods (empty number lines) <i>to include crossing the tens boundary</i></p> <p>Use inverse to check answers to calculations</p>

		Solve problems with subtraction
Week 4	Measures – Money to solve problems	<p>Find combinations of coins to make a value up to £1 (using only silver coins for some children)</p> <p><i>Estimate answers to calculations</i></p> <p>Add two amounts of coins using pictorial representations or informal methods (<i>including crossing the tens boundary</i>)</p> <p>Subtract from an amount of coins using concrete objects or informal methods (<i>including crossing the tens boundary</i>)</p> <p>Add three <i>or more</i> one-digit numbers of pence mentally or by using object or pictures(<i>including crossing the tens boundary</i>)</p> <p>Subtract ones from a two-digit number of pence or tens from a two-digit number of pence using coins or informal methods to give change (<i>including crossing the tens boundary</i>)</p> <p>Use inverse to check the answers to calculations</p> <p>Solve simple problems in a practical context involving addition and subtraction of money.</p>
Week 5	Measures–mass to solve problems	<p><i>Work practically with mass /weight</i></p> <p><i>Understand how to use weighing scales to measure/weight accurately</i></p> <p><i>Understand how to read a simple scale on weighing scales</i></p> <p>Estimate and measure using standard units i.e. 100 g and 1 kg</p> <p>Compare and order mass and record the results using $>$, $<$ and $=$.</p> <p>Solve problems involving weight/mass</p>
Week 6	Fractions to solve problems	<p>Count forwards and backwards in halves and /or quarters to 10</p> <p>Recognise and practically find and name $\frac{1}{2}$, $\frac{1}{4}$ and $\frac{3}{4}$ of a length, shape, number or quantity</p> <p>Recognise the equivalence of $\frac{1}{2}$ and $\frac{2}{4}$</p> <p><i>Begin to understand and use the terms numerator and denominator.</i></p> <p><i>Understand that the larger the denominator is the more pieces it is split into and therefore the smaller each part will be.</i></p> <p>Solve problems involving simple fractions</p>
Week 7	Multiplication and division to solve problems	<p>Recall multiplication and division facts for 2 x, 5x and 10 x tables</p> <p><i>Make arrays or patterns to show “groups of “such as 2 lots of 3 and count in groups (multiples) not ones</i></p>

		<p><i>Understand division as sharing and grouping.</i></p> <p><i>Group and share small quantities</i></p> <p><i>Understand multiplication as repeated addition using manipulatives.</i></p> <p>Calculate multiplication number sentences</p> <p>Record multiplication number sentences using \times and $=$</p> <p>Calculate division number sentences <i>using manipulatives</i></p> <p>Record division number sentences using \div and $=$</p> <p>Use inverse to check the answers to calculations</p> <p>Solve problems involving multiplication, using materials, arrays, repeated addition, mental methods, and multiplication and division facts, including problems in contexts.</p> <p>Solve problems involving division, using materials, arrays, <i>repeated subtraction and sharing</i>, mental methods, and multiplication and division facts, including problems in contexts.</p>
Week 8	Shape and position and directions to solve problems	<p>Identify and describe the properties of 2-D shapes, including the number of sides and angles</p> <p>Identify and describe the properties of 2-D shapes, including reflectional symmetry</p> <p>Arrange 2D shapes in patterns and/or sequences.</p> <p>Use mathematical vocabulary to describe position, direction and movement, including movement in a straight line and as <i>turning</i>.</p> <p>Solve problems involving shape</p> <p>Solve problems involving position or direction</p>
Week 9	Statistics to solve problems	<p>Construct simple charts, graphs and tables</p> <p><i>Read and interpret scales including those marked in one but numbered in twos or fives</i></p> <p>Ask and answer simple questions involving totalling and comparing</p> <p>Solve problems involving statistics</p>
Week 10	Time to solve problems	<p>Compare and sequence times</p> <p>Tell the time –o'clock , half past , quarter to and quarter past</p> <p>Begin to tell the time to five minutes –link to o'clock , half past , quarter to and quarter past</p> <p>Draw hands on a clock face to show given times</p> <p>Begin to know the number of minutes in an hour and the number of hours in a day.</p> <p>Solve simple problems involving time</p>
Week 11	SATS REVISION	Assess and review
