

Help with Mathletics

When attempting a Mathletics homework task on a topic you are unsure about, you can access support in the task by clicking on the 'i' button in the top right-hand corner. This can be accessed on all questions.

1 of 10 Preview - Area of Triangles

Calculate the area.

Not drawn to scale.

Area = cm²

 Hide animation

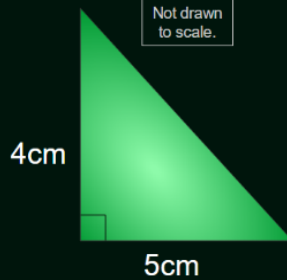

[Submit](#)

This will take you through to a screen where you can watch a video, talking you through the activity. To play the video simply click on the triangular play button; once you have watched it and feel ready to have a try, then you just need to click on the 'X' in the top right-hand corner to return to the question.

1 of 10 Preview - Area of Triangles

Calculate the area.

Not drawn to scale.

Formula

$$A = \frac{\text{Base} \times \text{Height}}{2}$$

 Hide animation

If the video is not working, you can still get support by clicking on 'Classic support' which will show the steps to tackle the problems. Again you can return to the question by clicking on the 'X' in the top right-hand corner. Remember you should repeat a task until you get at least 70% correct (7/10)!
