

## Setting Description

Use these images to write your amazing setting description. Please remember to use powerful vocabulary. Use an online thesaurus or similes and metaphors to improve your writing. As a challenge, you could even use personification and alliteration. Please look at my example on the next page for ideas of length and detail expected. Remember, you're writing in the first person as if you're on the beach.

**Example:**

This has been done with a different picture to just give you an idea of how we expect you to complete the setting description for the gloomy beach.

Frozen to the spot, I stood staring at the house. My body was shaking and a cold shiver ran down my spine. I could hear the cries of the bats swarming the house and the creaky doors shouting in pain. The haunted house was hidden by trees standing proudly like guards ready to defend. The moonlight cast a ghoulish glow on the house which was made brighter by the gloomy fog surrounding it. What could the red lights be? A terrifying thought whirled inside my head, no matter how much I tried to ignore it. Can a house be alive? As I stepped closer, my heart was beating faster. It almost sounded like a child playing wildly on a drum. **CRASH!** Something fell at my feet... As I turned to look, I held my breath. Luckily, it was just a roof tile which narrowly missed me!
