### Jokes to make you smile

See the back of the newsletter for the answers.

1. What kind of tree fits in your hand?
2. Why was the baby strawberry crying?
3. How do we know if an ocean is friendly?

Riddle me this...

What falls in winter but doesn't get hurt?

Hello Bumblebees and Dragonflies,

We hope you are all happy and well. It's already June. Did you know, June is the month with the longest daylight hours of the year in the Northern Hemisphere? So, with lots of light, sunshine and a little more freedom we hope you are getting out more and maybe even starting to meet up with some familiar faces and family. It has been lovely to see emails of your work and see the tasks you have been completing online. We are very proud of how hard you are continuing to work and pleased that you all seem to be enjoying the ancient Greek topic.

Miss Coveney has set herself a new goal and has been learning a magic trick – she's quite good now, and can make a whole box of chocolate fingers disappear instantly! TaDa!

Miss Jones has been doing magic to make things appear! Growing peas and watching them grow has been fascinating! We hope you are all enjoying keeping up with your seed diary and watching something grow from almost nothing!

We send you lots of smiles,

Miss Jones, Miss Coveney, Mrs Ellis and Mrs Clark

Now you see them...

Now you don't!

I am working hard to perfect my trick.

I will keep practising until I get it just right!

It has been magical watching the dried up peas growing roots and a stem. It has all happened so quickly! How did your seeds do?
