

# Kingfishers' and Nighingales' Feedback

Date: Friday 15th January

Make sure that you try to keep up with the tasks that you have been set each day. That way, when we return to school, you will feel more confident about where we are up to.

The feedback here describes what the class did well and how we can make our work even better.

## Maths

Well done for completing some more great work this week. The labelling of your questions is becoming clearer and you are all working hard on presentation. It was lovely to see you all working hard in our zoom lessons this week and I look forward to having some more of these next week!

Well done to the few of you who spotted Miss Brooker's mistake!  $6,00 - 4,538 = 226$ . This shows me who has been working hard through our lesson introductions.

## Learning Adventure

This week we have focused heavily on direct speech. This will come in handy in the next few weeks as we progress onto story writing and will be a great skill for you to show off!

You were all able to identify and use the correct punctuation and spot the reporting clauses within a text. Well done year 4!

## GPS

Apostrophes are a piece of punctuation that you will use regularly within your writing, so becoming confident with them is key! Remember to follow the helpful video clip we have posted if you are still unsure. This will recap both apostrophes for possession and for contractions. We have seen some great work this week, but not many of you have sent your GPS work over. Even if you are not sending this in, please ensure you continue to engage with the work.

## Geography

Within geography this week you were asked to identify the difference between the UK, Great Britain and the British Isles. From what I have seen, you were all able to do this and some of you even managed to draw your own maps! We understand that map work is tricky to complete at home, but well done to those of you have gave me some great interpretations of the UK!
