

## New Maths Topic – Multiplication and Division

Before we begin our next topic, take a moment to read through our upcoming objectives and assess if you currently feel “green, amber or red” for each one.

Remember we will revisit this grid at the end of our block, so do not worry if you currently feel “red” with certain topics, hopefully you will become more confident as the term progresses!

Either write out these short statements in your book, or print the grid below. Then use a red, orange or green pencil to assess each one. If you do not have colouring pencils to hand, you can write R, O or G.

Beginning of topic	Objective	End of Topic
	I understand the meaning of multiplication and division	
	I can multiply by 10 and 100	
	I can divide by 10 and 100	
	I can multiply by 1 and 0	
	I can divide a number by 1 and itself	
	I am confident with my 3 x tables	
	I can multiply and divide by 3	
	I am confident with my 6 x tables	
	I can multiply and divide by 6	
	I am confident with my 7 x tables	
	I can multiply and divide by 7	
	I am confident with my 9 x tables	
	I can multiply and divide by 9	
	I can use my times table knowledge to create fact families
