I can round decimals to the nearest whole number.

To round a decimal fraction to the nearest whole number look at the tenths column.
If the number in that column is less than 5, round down.
If the number in that column is greater than 5, round up.

Examples
3·5 rounds to 4
£2·70 rounds to £3

5·49 rounds to 5
£6·28 rounds to £6

3·62 m rounds to 4 m
5·379 km rounds to 5 km

Round each price to the nearest pound.
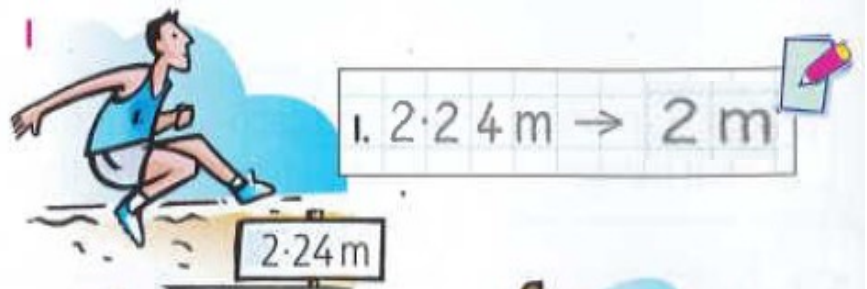

1. £9·13 → £9

1. £9·13

2. £17·12

3. £12·39

4. £7·49

5. £19·10

6. £15·25

7. £11·32

8. £19·72

9. £14·91

Remember the answers will be available on the school website from 2pm today.

Make sure that you mark today's work.

If you are still unsure of something after you have marked your work— there is a **Zoom Maths Drop-in** at 3:30pm today.
