

# Ladybirds and Butterflies Feedback

Date: Monday 25th January 2021

Make sure that you try to keep up with the tasks that you have been set each day. That way, when we return to school, you will feel more confident about where we are up to.

The feedback here describes what the class did well and how we can make our work even better.

## Maths

You have really grasped multiplication and how arrays, repeated addition, groups and the stem sentences link to show this. Well done for finding some very creative ways to make arrays and groups with coins, pasta, pencils, beads, fruit and lots more objects you have at home. This week when we move to division remember that it is the opposite of multiplication– the inverse, so the answer will be smaller than the first number in the number sentence or problem. Keep remembering to write those digits the correct way around!

## Learning Adventure

Your stories are absolutely **AMAZING!** You have all worked so hard this week, we are really impressed with all of the powerful language you have been using and that you have included adverbs in your writing. Well done for using lots of different types of punctuation too, not just full stops and capital letters. The presentation of your work is outstanding, you are working so neatly in your books and really giving us your best efforts– thank you! We are really impressed by your spelling too and can tell that you have been practising at home. Keep up all of your hard work and keep presenting your work so beautifully!
