

Bumblebees and Dragonflies' Feedback

Feedback for: 25.1.21 and 26.1.21

Make sure that you try to keep up with the tasks that you have been set each day. That way, when we return to school, you will feel more confident about where we are up to.

The feedback here describes what the class did well and how we can make our work even better.

Maths

Well done for mastering division with remainders. It was lovely to see everyone in the zoom to support with this as it can be tricky.

Think about using different methods to prove your answer and to work out the calculations.

Remember to explain your answers clearly as to why something is true or false and what the mistake is.

Learning Adventure

We have seen some fantastic story plans since yesterday. You have all presented your work well and included lots of powerful vocabulary: sentence starters, adjectives, similes and adverbs in your plans. Make sure you include them in each of your paragraphs as you write. Don't forget the range of punctuation that you know too. Remember to re read your paragraphs before you finish and edit and improve them by checking spelling mistakes, especially those you have learnt in past spelling lists as well as ones given during the lesson input— **Corky**.
