## SPaG - Homophones

Next term we are going to be learning about different homophones.

### What is a homophone?

A homophone is a word that is pronounced the same as another word but differs in meaning.

A homophone may also differ in spelling.

The two words may be spelled the same, as in rose and rose, or differently, as in rain, reign, and rein.

## Homophones

Here are a few homophones to start you off.

1. Can you think of at least 10 of your own homophones and write them in a list.
2. Check the spellings carefully.
3. Write the meaning of each word next to the homophone to explain how each word is different.

Here are some homophones to help in case you get stuck:
