

Science in Focus

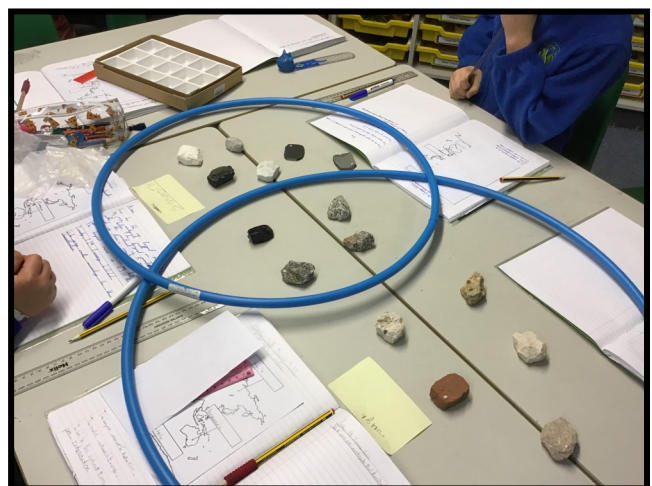

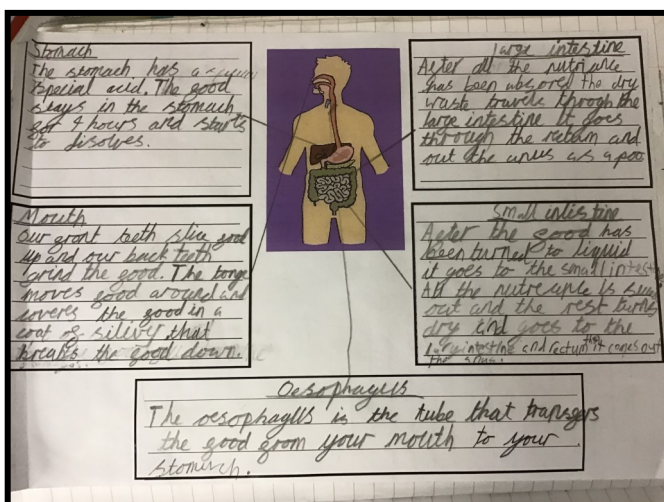

Year 6 have been investigating Forces!

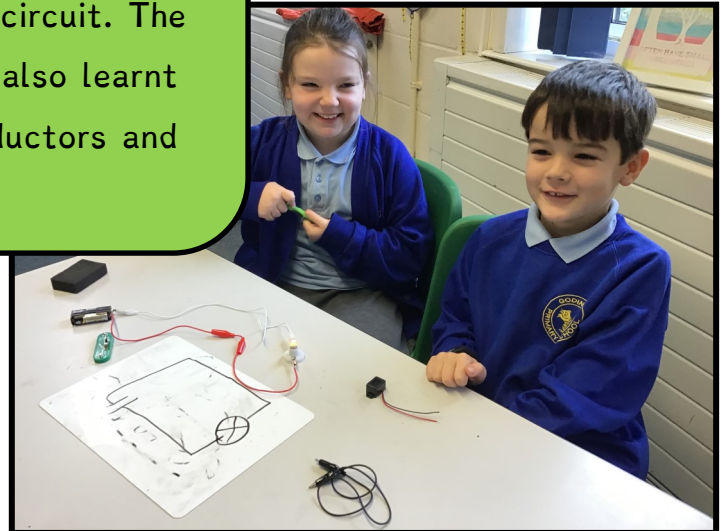

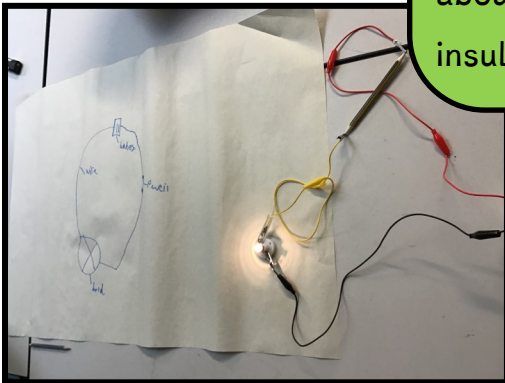

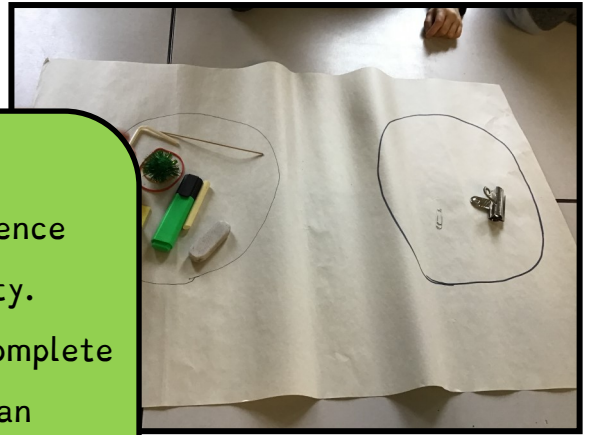

Year 4 have been learning about the human body and how food is digested!

They have also learnt a lot about Rocks and Soils. This included sorting and classifying as well as learning about the properties of different rocks.

Year 3 have been enjoying their science topic of Electricity. They can make complete circuits, identify an break in a circuit. The child have also learnt about conductors and insulators.

In Year 2, the children have been investigating the properties of materials, including which materials are flammable. This knowledge really helped the children when they learnt about the Great Fire of London in Pudding Lane.
