

Geography in Focus

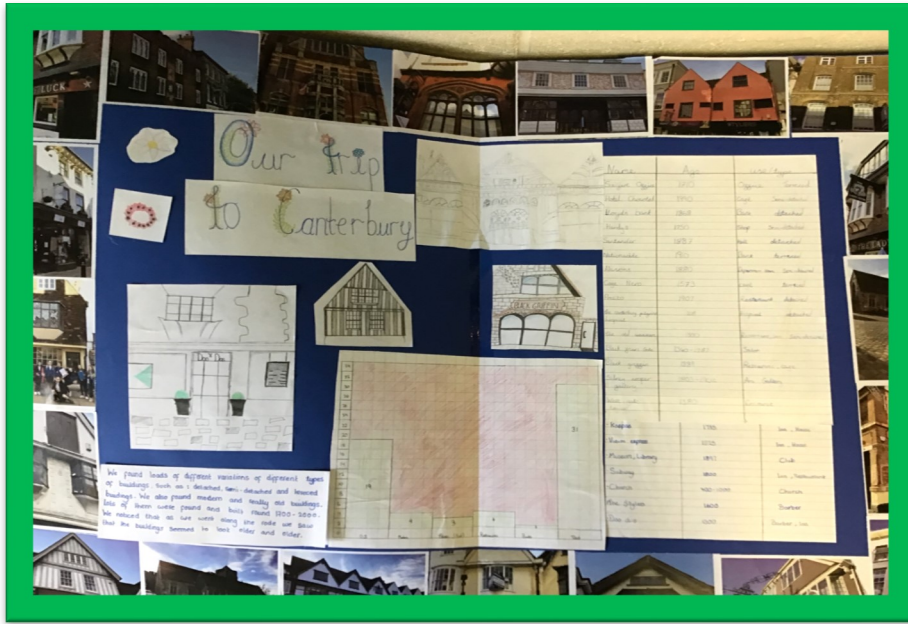

Children in Year 1 have been learning about their local area and created their own aerial plans of our school playground.

Year 2 have used globes and atlases to locate the continent of Africa and specific countries.

Geography in Focus

Linking in with their History unit, Year 6 children have studied how Canterbury has changed over time and considered the potential reasoning for the changes.

The children worked collaboratively to design their own investigative question and had the opportunity to complete fieldwork to gather evidence. After a day in Canterbury, they returned to the classroom and worked in small groups to present their findings to their peers.
