

Kingfishers and Nightingales Homework Trail (Term 6 2023–2024)

Weekly homework tasks

Reading

Read a book for at least 10 minutes every day. This could be your school reading book or a book from home.

Mathletics and Times Tables

A task will be set on Mathletics each week. You can use the games and challenges available on Mathletics as often as you like. The more, the better! Practice your times tables ready for your weekly test.

Spellings

Have a look at and learn the words from the front of your homework book and practice regularly. Have a look at the high frequency word lists that can be found on the [school website](#). Select the coloured list that contains words that you know you need to practise to enhance your writing.

Off on the trail...

You must complete three squares in a row, passing vertically, horizontally or diagonally through the middle

The Extra Mile...

Whilst there are no extra mile stickers on offer for this homework task, still try to see how many tasks you can complete!

Choose an activity to complete from the National Trust's website '50 Things to do before you're 11 3/4'. There are all sorts of different things to try!

<https://www.nationaltrust.org.uk/visit/50-things>

Interview a member of your family to find out more about them. Think about what questions you are going to ask—perhaps about their childhood or the job that they do now. You might find out something you never knew!

Take any number you like and see how many different things you can do with it. Make calculations to reach that number or perhaps see how many different places you can see it in (in shops, on signs etc.).

Explore the topic of 'Flight' in whatever way you want. You could look at different types of aircraft from aeroplanes to hot air balloons, plan a round the world flight, look at different birds or make something that can fly like a kite.

Fill in the postcard attached to Miss Talbot and your teacher telling them about the things on your trail you have completed.

Can you make a portrait of a person from history out of natural materials that you find outside? Perhaps you could create a picture of Elizabeth I with hair made from leaves or Albert Einstein with a face made from twigs.

Write your own book, short story or comic (with help from a grown up if you need to) in which your family or friends are the main characters. Where will your story be set? What will happen?

This summer sees the Olympic Games taking place in Paris. Make your own Olympic event in your garden, indoors or in the park. What events will you include? Perhaps create your own medals for everyone

Choose one of our Guiding Stars and create an activity to help you develop that skill. Perhaps get together with friends to develop your teamwork skills by making something together or learn a new skill to practice persevering. All our Guiding Stars are on our website.

Congratulations everyone—you are now on the final stretch of your Homework Trail.

The Term 6 Homework Trail is a special one as it involves spending time with family and friends and being outdoors. You don't need to write anything in your homework book—just fill in the attached postcard to tell your teachers and Miss Talbot about all the things you have completed on this term's trail. You can attach some photos as well. This homework needs to be returned by **Friday 12th July**.

To Miss Talbot and _____

Godinton Primary School

Lockholt Close,

Ashford,

Kent.

TN23 3JR

Fill in this postcard to tell Miss Talbot and your teacher about the Homework Trail tasks you have completed. You can attach some photos too as we'd love to see the exciting things you have been up to.
